### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 33,35,37-39,42-46,48 and 49 are rejected under 35 U.S.C. 102(e) as being anticipated by Fischell, et al.-5634928.

Fischell discloses in fig. 4h and 4I and the accompanying description, a balloon catheter having a balloon-expandable stent on the balloon. The balloon is the claimed coupling portion or distal section, which couples an expandable implant (stent 40) to the catheter. Fluid delivered to the balloon causes the balloon to be expanded and subsequent deflation of the balloon causes the balloon and catheter to be able to be withdrawn. Both expansion and deflation of the balloon are necessary to cause the stent implant to become released from the coupling balloon. Since the claims do not state that it is expansion of the balloon to the exclusion of any other action which causes the release of the implant, the examiner contends that the claim limitations are met.

*Allowable Subject Matter*

Claims 36, 40, 41 and 47 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

*Response to Arguments*

Applicant's arguments filed 01-20-04 have been fully considered but they are not persuasive.

As shown in the above figure, Fischell discloses a distal section or a coupling portion which is shorter than the coil stent and wherein the distal end of the coil is distal of the distal end of the distal section or coupling portion. The use of "section" or "portion" leaves open the interpretation that only a portion or section of the balloon is the claimed section or portion.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
